Innovation for Intelligence for Solutions for

simplicity a better tomorrow all

**Client**

THE CATHEDRAL AND JOHN CONNON SCHOOL

**Location**

Mumbai, Maharashtra India

**Size**

2000 students

**Solution**

iSchool V 4.6

• **School Overview**

The Cathedral and John Connon School is undoubtedly one of the most prestigious educational institutions in this country. For more than 145 years it has imparted the finest education through the medium of English, and has the tradition of upholding the most worthy values of the civilized world.

• **Problem Specification**

The school was using the education software called Lyceum. The major problem faced by the school was in generating accurate results. Hence the school management felt a need to shift to a education management software which would not only be user friendly and intelligent, but also suit their needs specifically related to exams and results generation.

• **Solution**

The following modules were implemented by Ceon Solutions and services were rendered understanding the requirement of the school:

1. Academic
2. Time Table
3. Results
4. Student Information
5. Attendance
6. HR Information
7. School Information

- **Results**

- Easy and quick handling of routine activities
- All work from desktop on click
- Minimizations of repeat and redundant activities
- Instant view of School report
- Improved teaching effectiveness
- Easy access to detailed time table

- **User Feedback**

**“We appreciate the effort put in by the Ceon team to make sure that our reports got printed properly and in time. There was not a single mistake. We are happy with the way the entire process was executed”**

**– Cathedral IT Admin**
